ORIGINAL: ENGLISH

COMMITTEE ON NATURAL RESOURCES
Third session
6-17 May 1996
Agenda item 6

FUTURE WATER RESOURCES MANAGEMENT ISSUES AND THE STRATEGIES AND POLICIES THAT THE INTERNATIONAL COMMUNITY SHOULD BE CONSIDERING IN RESPONSE

Averting the multi-cause water crises ahead: key coping strategies

Inter-sessional strategy paper of the Committee on Natural Resources

Corrigendum

1. The title of document E/C.7/1996/6 should read as above.

2. Paragraph 65

The second sentence should read

> The principle of water as an economic good basically refers to the allocation of water in aquifers and rivers.

3. Paragraph 79

For International Labour Organization read International Law Commission
